AAMHL has an online community on Big Tent where audiologists, music educators/therapists and adult musicians with hearing loss can get together to discuss issues of interest, work on collaborative projects and list upcoming events on making music with a hearing loss.

The only requirement we have for prospective members is that they are adults (18 years of age or older) and have a serious interest in making music with a hearing loss.

Filling in the form below will allow Big Tent to send you an invitation to register for the collaboration site. Please note the city/state/zip portion of the registration form is optional data.
